SPECIAL ISSUE

EVENT MARKERS IN EARTH HISTORY

A selection of papers from the Joint Meeting of IGCP projects 216, 293 and 303 on Event Markers in Earth History, 28–30 August 1991, Calgary, Alta., Canada

Edited by

H.H.J. GELDSETZER and G.S. NOWLAN

Geological Survey of Canada, Institute of Sedimentary and Petroleum Geology, 3303–33rd Street N.W., Calgary, Alta. T2L 2A7, Canada

CONTENTS

Preface
H. H. J. Geldsetzer and G. S. Nowlan 1
Complex organisms from the Udokan Complex of Eastern Siberia with implications for its age
V. N. Burmistrov 3
Depositional history and sequence stratigraphy of the Precambrian–Cambrian boundary stratotype section, Chapel Island Formation, southeast Newfoundland
P. M. Myrow and R. N. Hiscott 13
A major conodont extinction event during the Early Ordovician within the Midcontinent Realm
Z. Ji and C. R. Barnes 37
Oxygen and carbon isotopes and event stratigraphy near the Ordovician–Silurian boundary, Anticosti Island Quebec
D. G. F. Long 49
The great latest Ordovician extinction on the South China Plate: Chemostratigraphic studies of the Ordovician–Silurian boundary interval on the Yangtze Platform
K. Wang, C. J. Orth, M. Attrep Jr, B. D. E. Chatterton, X. Wang and J.-j. Li 61
The Frasnian–Famennian extinction event in a stable cratonic shelf setting: Trout River, Northwest Territories, Canada
H. H. J. Geldsetzer, W. D. Goodfellow and D. J. McLaren 81
Carbon and oxygen isotope event markers near the Frasnian–Famennian boundary, Luoxiu section, South China
Y. Zheng, H. Hong-Fei and Y. Lian-Fang 97
Upper Devonian iridium anomalies, conodont zonation and the Frasnian–Famennian boundary in the Canning Basin, Western Australia
R. S. Nicoll and P. E. Playford 105
Event-stratigraphic markers within the Kellwasser Crisis near the Frasnian/Famennian boundary (Upper Devonian) in Germany
E. Schindler 115
Biochronological aspects of the Devonian–Carboniferous crisis in the regions of the former USSR
K. V. Simakov 127
Middle Palaeozoic extinction events: Faunal and isotopic data
J. A. Talent, R. Mawson, A. S. Andrew, P. Joseph Hamilton and D. J. Whitford 139
Major Paleozoic land plant evolutionary bio-events
J. Gray 153
Carbon isotope and iridium event markers near the Permian/Triassic boundary in the Meishan section, Zhejiang Province, China
X. Dao-Yi and Y. Zheng 171
A planktonic marker and Callovian–Oxfordian fragmentation of Gondwana: Data from Ogaden Basin, Ethiopia
M. Brassier and S. Geleta 177
The Cenomanian/Turonian boundary event in Central Poland
D. Peryt and K. Wyrwicka 185
Geochemistry of some K/T sections in India
N. Bhandari, P. N. Shukla and G. Cini Castagnoli 199
Amino acid composition of dinosaur eggshells nearby the K/T boundary in Nanxiong Basin, Guangdong Province, China
Z.-k. Zhao, J.-k. Wang, S.-x. Chen and Y.-m. Zhong 213
Cretaceous/Tertiary boundary sections on the coast of the Black Sea near Bjala (Bulgaria)
A. Preisinger, S. Aslanian, K. Stoykova, F. Grass, H. J. Mauritsch and R. Scholger 219
Carbon isotope evidence for unusual plankton blooms and fluctuations of surface water CO in "Strangelove Ocean" after terminal Cretaceous event
D. J. Hollander, J. A. McKenzie and K. J. Hsü 229
The Cretaceous/Paleogene boundary and planktonic foraminifera in the Flyschgosau (Eastern Alps, Austria)
D. Peryt, R. Lahodynsky, R. Rocchia and D. Boclet 239
Iridium and other platinum-group elements as geochemical markers in sedimentary environments
Z. Sawlowicz 253
Cometary impacts into ocean: their recognition and the threshold constraint for biological extinctions
L. F. Jansa 271
